ITALIAN EXHIBITION.

On Sunday, at 3 o'clock, the first Italian Exhibition ever given in these countries was inaugurated by President Roca. Notwithstanding the intense heat of the day, the attendance was so crowded that the spacious buildings and gardens were taxed to their utmost to accommodate the people. Long before the appointed hour, not only the Exhibition building and grounds, but also the adjoining streets were crowded. In front of the grand entrance Col. Donovan, with the whole of the 8th of the Line, held the street, whilst hundreds of Italian gentlemen, with silver and gold medals and rosettes, attended to see that the many distinguished guests were duly accommodated,

All the various Italian clubs marched in procession with bands playing and colours flying, and to some few of the spectators not the least interesting feature of the ceremony was these serried ranks of Italian trades men, all well-dressed and neat, entering the building and numbering so many thousands that one gave up the task of counting. That the Italian Exhibition is one of the greatest lessons for us all none can deny, since it establishes a virility and organization amongst the trading classes that, perhaps, few of us were aware of, and demonstrates a higher standard of class respectability, class comfort, class prosperity and class independance than can be found not only in Italy itself but in most parts of Europe.

Sharp at 3 o'clock the band struck up the National Anthem, and the President's carriage, escorted by a squadron of Hussars, drew up at the grand entrance. President Roca, with Count Favar, Italian Minister, Sr. Zoccola, President of the Committee, and follow by Sr. Dn. F. Madero, Vice-President of the Republic, Dr. del Viso, Minister of the Interior, Dr. Victorica, Minister of War, Sr. Cortines, Finance Minister, Lord Mayor Alvear, Admiral Cordero, Dr. Plaza, late Minister of Hacienda, Dr. Cittadini, Dr. Pellegrini, late War Minister, Srs. Uano, Parodi, de la Barra, Geo. W. Atkins, Dr. Llambi Campbell, Charles Davis, Seedorf, Cranwell, Diaz Velez, and hundreds of others whose names we forget, entered the main building, which was beautifully decorated. President Roca took his seat at the head of the table, with the Italian Minister, and Sr. Zocola President of Committee, on either side.

The grand Italian band, composed exclusively of Italian professors, now struck up the 'Old Mortales,' and the vast audience stood uncovered. The 'coup d'œil' at that moment was one never to be forgotten. The young man at the head of the table, with the large sash of office, which contrasted with his light, bright, juvenile countenance, (President Roca) looked at the moment every inch an Englishman or a German.

When the music ceased Sr. Zocola read, in exquisite Italian, a beautiful address composed for the occasion, at the conclusion of which

President Roca rose and in a clear, emphatic tone said—

Gentlemen,

I have accepted with pleasure the honour of inaugurating this humble feast, begun and successfully carried out by humble Italian workmen, who spared no expense, and without the slightest help from any Government, achieved this success; and whatever be its proportions, this Exhibition is an unmistakable sign of progress, which reveals the prosperity and aggrandizement of a nation.

Exhibitions are the highest, most civilized and most refined expression of the daily contest of man for existence, owing to their eminently fraternal and cosmopolitan spirit.

Unlike the tournament of the middle ages, when feudal lords assembled covered in armour ready for fight. Unlike the battle-fields of civil strife, where ignoble ambition leads to slaughter, the Exhibition is the modern contest of human labour, which, far from bearing desolation and death, opens new horizons to human activity.

Noble competition assembles men of every race and every clime, with the fruits of the soil, the products of their industries, their arts, their sciences and all the manifestations of work. On a neutral ground they meet to mutually study and perfect their exhibits. We see animosities banished, and the breath which universal progress advances, animates the Asiatic, the European and the American—the offspring on ancient civilization of nations on the pinnacle of progress, of young countries marching to the conquest of their great destiny and illumined by the rays of hope.

At the end of the 18th century in the infancy of the French Revolution, the first Exhibition was held; but only in the nineteenth century did Exhibitions reach their full development, and this period may well be termed the century of Exhibitions as well as of steam, electricity and of other great discoveries achieved by human intelligence.

Paris, London, Vienna and Philadelphia have astonished the world with their colossal Exhibitions, which represented all the conquests of learning, intelligence and work, in proportion never dreamt of during the grandeur of Rome, nor harboured in an Oriental imagination, when the fabulous bazaars were held in Persian India. Thus, as universal Exhibitions foster peace, prosperity, friendship and unity amongst the nations of the earth, the local Exhibitions bind guilds and societies together, evidence the public wealth, the producing faculties of the nation and its progress; therefore, any meeting of the kind, however humble, although the present one is far from being so, should meet with our support and our applause Public and private wealth are increased, order and peace are insured, if we honour industry, foment and perfect the means of production.

A philosopher has said that he who works is free, and this is a great truth amongst individuals and nations. When I look on the smiling feast, organized by an humble group of Italian workmen, radicated to the soil, their second fatherland, my satisfaction is great as an Argentine and a Magistrate. I have always witnessed with the greatest sympathy the powerful current of Italian immigration, which incessantly increases our producing powers. The Italian is no stranger in the Argentine Republic, for whose liberties he has often shed his generous blood. When, landing on our hospitable shores, he hails the climate, the haven, the customs and the language of his mother country, he finds a country generously opening its arms to him, offering him comfort and labour under the wing of liberty and the most perfect democratic equality.

Italians, we owe you a great debt. The greater number of agriculturists who till our lands are Italians: Italians those who man our river craft, who embellish our cities with the improvement of modern architecture, and those who foster arts on our soil. To-day you give us another proof of your prolific activity in this Exhibition, which is in reality an Argentine Exhibition. It would have been, perhaps, better to have called it Italo-Argentine, thus interpreting the sympathies, the traditions and commercial interests between Italy and the Argentine Republic, and the reciprocal fusion of both populations.

When this country reaches the pitch of greatness in store for it at no distant day, you can proudly exclaim. 'We have helped to form this Argentine Nation with our blood, with the sweat of our brow, our example, our labour and our intellect, strengthening in its sons the instinct of greatness and expansion which we inherited from our ancestors, the conquerors of the world.'

Mr President of the Central Committee.

I congratulate you, the Committee and all the workmen, artizans and manufacturers who have organised this Feast of Labour. May it be but the forerunner of others of greater importance in the Argentine Metropolis, and which it will be a duty for the National Government to aid. The Minister of the Interior will hand to you the certificates and medals which the Judges may award as prizes.

Gentlemen

I declare the Exhibition open.

Presidente Roca, during the delivery of his splendid address, was frequently interrupted by bursts of applause. The band then played a march especially composed for the occasion, after which Sr. Giovanni Mondelli read the inaugural act, which was signed by the President and others. The Garibaldi hymn was next played, and then President Roca, accompanied by the Italian Minister, the President of the Committee, Sr. Madero, Vice-President of the Republic, and the Cabinet Ministers strolled through the building, first visiting the furniture department, which really astonished every one. Clear it is that we have no longer any need to send to Europe for furniture, since the Italian cabinetsmakers of Buenos Aires make as good as any to be had in Europe. The organ, we believe the firsts ever made in this city, was played and its music filled the edifice; it was made by Dr. Alberto Poggio. We shall reserve for a future chapter a detailed description of the different 'salas' with their exhibits. The place was so thronged that it was impossible to take notes; as for the Italians, they seemed overjoyed with their most brilliant success. We never before saw such an Italian gathering: on every side we met the descendants of Dante, Petrarch, Boccacio, Lorenzo de Medici Bojardo, Rienzi, Ariosto, with here and there the chiselled features of a Francisco de Rimini. At night the place was illuminated, and what with the lights, the music and the crush of people, one was fain to ask, can all this be possible in Buenos Ayres?

ARGENTINE COMMERCE

Vicount San Januario, one of the most distinguished statesmen in Portugal, and who, some two years ago, was sent by the King on a special mission to South America, has published a highly important report on what he saw and learned on this continent, and our esteemed colleague *La Tribuna Nacional* is doing excellent service in giving this publication to the public, in a series of chapters. That on the Trade of the Argentine Republic is of the highest interest, and we give the Viscount's figures hereunder. His Excellency shows that this Republic's trade has, of late years, developed in a greater ratio than that of any other nation in the world, according to the figures supplied to him by the late M. Vaillant, Chief of the Statistical Department at Montevideo, which are these—

Countries	Increase per cent yearly Average
Argentine Republic	14 8
Franche	10 2
Chile	8
United States	7
Brazil	8 2
Norway	7 4
Holland	7 5
Belgium	7 1
Denmark	6 1
England	5 2
Portugal	3 6
Russia	1 4
Italy	0 2

The nations of Asia are stationary, and, with the exception of France, those of the Old World are showing a much less rapid commercial development than the countries of the New, in proportion to population etc., South American nations leading the van in this respect. Viscount Januario considers (and justly) that the enormous natural resources of this republic are more than sufficient to force it ahead, and that industry and manufactures will come gradually with increased population, without Protection or any

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

other artificial means, which only damage the general interests of the country and never achieve their object,

During the past eight years the trade of the Argentine Republic was as follows—

	Hard Dollars Imports	Exports
1870.....	47,539,950	29,248,146
1871.....	44,157,238	26,125,930
1872.....	59,999,143	45,745,192
1873.....	71,065,199	45,869,314
1874.....	55,961,177	43,104,712
1875.....	55,765,8 9	50,311,400
1876.....	34,910,290	46,335,605
1877.....	39,309,141	43,393,609

Hides, tallow, wool and animal oils, hair and preserved meats formed the bulk of the exports ; but the products of the country are so numerous and varied that the exportation is certain to increase rapidly, and already there is a large export of wheat, valuable timber, fruits etc.

This country imports from the nations of the world in the following proportions—

From Europe.....	73-07	per cent
From America.....	21-14	do
From various.....	5-64	do
From Asia	0-15	do

The import trade from Europe showed the following proportions up to 1876.

From England.....	40	per cent
France.....	30	do
Spain	8	do
Italy.....	7	do
Germany.....	5	do
Belgium	4	do
Portugal, Sweden Norway.....	33	do
Holland.....	2	do

In exports the figures are..

To Belgium.....	39	per cent
France.....	26	do
England.....	21	do
Italy.....	6	do
Germany.....	38	do
Spain.....	3	do
Portugal.....	0-09	do
Others.....	-89	do

The imports of wine were :—

From	Litres
Germany.....	2,176
Belgium.....	880,292
Brazil.....	2,571
Spain.....	18,646,548
Uruguay	2,103,810
U. States.....	45,600
France.....	21,572,465
England	35,023
Italy.....	2,662,376
Portugal	60,535
Others.....	6,634
In transit.....	2,295,113

The figures for Portugal are, according to Viscount Januario, much under the real mark, and most of the imports from Brazil and England are also of Portuguese wines. The large amount of wines imported by the republic from Belgium is a very remarkable fact. The wine imported from Uruguay is exclusively European, deposited in Montevideo for reshipment.

According to the figures given, each inhabitant of the republic consumes annually 30,000 reis worth of imports, whereas in Portugal the figure is only 6000 reis per head. For a long time past economists have observed that the nations of America consume fully four times as much articles of luxury as the European nations.

The estancias of the republic (its principal source of wealth) contain—

	Head	Value pats.
Horses.....	4,000,000	18,000,000
Asses.....	300,000	730,000
Mules.....	132,125	2,429,835
Cows	15,000,000	100,000,000
Sheep.....	60,000,000	90,000,000
Goats.....	300,000	3,000,000
Swine.....	320,000	2,000,000
Total....	82,752,125	214,359,835

In spite of these enormous numbers, which are yearly increasing, years and years must elapse before the immense territories of the republic are as fully stocked as they ought to be. Several estancieros having imported the very best animals Europe produces, the native breeds are rapidly improving. The Pampa horse, a marvel of decelily and endurance, is also being greatly improved by crossing.

EDITOR'S TABLE.

All town seemed 'oft its head' about the Italian Exhibition on Sunday, which was, as the French say, 'un succes eclatant.' French, English, Germans, Danes, Dutch, Spaniards, all were there in thousands to witness this great Italian victory in the field of Industry, which is also a victory for the whole foreign element in the country. Some of the exhibits are really worthy of the Crystal Palace at Sydenham, or the Kensington Museum. 'The First Lesson,' a workman teaching his son his alphabet, is a touching piece of sculpture, and crowds paused to gaze on it. The furniture department is simply splendid, and people need no longer be the victims of the ricketty trash which has so long passed current here as 'furniture.' Messrs Zamboni's machinery looks as good as it was turned out in England : in fact nearly everything in the building is worthy of praise, with the exception of some of the glass ware, which is more useful than ornamental, and some few other things. We give full particulars of the day's doings in our leading columns, but wish to specially compliment the orchestra, the Estrella di Roma band : The 'verve' and admirable precision of every piece they played could not be surpassed, especially the Garibaldi Hymn, which was played immediately after the Argentine Hymn.

The Britannia, of the Pacific line, brings dates from Europe to 1st inst Prince Rudolf of Austria and the Princess Stephanie will be married in May. Italian Parliament has passed Bill abolishing forced currency. The fight in which General Colley was killed was at Mount Prospect. The British only retired when their ammunition was exhausted. Boers took Wakerstroom, but British recaptured it. There is a rumour that Greece is to get Candia, instead of Epirus. Mr Gladstone was in bed, and traffic stopped in Downing St, owing to his having fallen and hurt his head when alighting from a railway train. Turkey has ordered arms in the United States.

The first news in town on Sunday morning was that the Saturno had knocked her bottom out on the rocks between Palermo and the Recoleta. It was too true. She left Montevideo on Saturday evening and all went well till a dense fog came on as she was nearing the Argentine coast. Captain Magnasco continued ahead at 'half speed,' thinking he was in the channel, but was suddenly brought up by the rocks, and at daybreak was astonished to find where he was. The passengers were greatly alarmed, although the vessel had struck where there was only six feet of water. Boats from the Capitania took off the passengers, their luggage and some of the cargo, but most of the latter is lost.

In spite of the great crowds at the Exhibition on Sunday, there was also a large assemblage at Barracas to witness the swimming races of the Marine Club. The winners were Messrs Leinau, Kesler, Ernerson, Oscar Stock, and Wittenstein ; Mr Durbec (Hardbeak), very appropriately, won the duck race.

Although the Italians, French and Spaniards of Asuncion had lots of time to learn all about the Chorillos and Miraflores massacre myth, they absolutely held an indignation meeting there on Sunday week, and spouted against the Chilians till every man present was as hoarse as a crow. Dan O'Connell used to say that if a lie got 24 hours start of the truth, the latter could never wholly overtake it, and this Miraflores business is the strongest and strangest proof we have ever witnessed of the truth of our great countryman's saying.

Whoever is attacked with any kind of blood disease, from yellow fever to pimples on the nose, should try Esmeralda Cervantes's wonderful preparation Tonatiyacapan, a medicine made exclusively with herbs and to the astounding efficacy of which all the leading doctors in Brazil have testified repeatedly under their hands and seals. It cures with certainty all kinds of fevers, and also rheumatism, epilepsy and hysterics. It will also make fat men or women as slim as lamp posts, by washing their 'too solid flesh' in it daily. In fact this remedy appears to be the most wonderful patent medicine as yet launched by South America, although it is richer in drugs and herbs than any other part of creation as yet discovered.

Typhoid fever is raging in certain Sections of Montevideo, in which there is plenty of stagnant water which the Board of Health never dreams of removing.

Rosario, at least the Argentine part of it, has been mightily shocked on learning that in some of the schools there the boys are occasionally well birched, when they deserve it. Of course, the 'dignity' of man cannot stand this.

Card-sharping in Railway trains, quite a common nuisance in England, is now planted in this country. Seven fellows were arrested the other day in a train to Azul for trying to swindle some other passengers at the game called 'black and white.'

Dr Luis Dominguez, Argentine Minister at Rio Janeiro, entertained the Brazilian Minister of Foreign Affairs and numerous other distinguished guests at a grand dinner in Petropolis, on the 9th inst,

The R.M S. Douro is expected about the 1st or 2nd prox. The Minho, which comes direct, will be here about the same time. All the best cabins of the Douro are already engaged for her homeward trip.

They had a few peals of thunder in Rosario on Friday evening and thought they were in for some rain, but we see nothing respecting 'agua' (except as to the want of it) in Sunday's papers from that place, so infer that they are still at melting heat up there.

The heat was worse than ever yesterday, although it was the first day of Autumn. Weather prophets now say that we shall have a very severe winter, and that there will be skating on all the ponds in the country, which is a rather blue look-out for the Skating Rink.

The site on which the Crystal Palace in Calle Florida is being built is quite too small for a structure at all worthy of the name, as it will be 'cribbed, cabined and confined' in every way. Somebody is going to drop 'plata' in this speculation.

We have to thank the Committee of the Italian Exhibition for sending us a permanent 'entrada,' which we hope to make extensive use of. The Exhibition will be open every day from 11 a.m. to 11 p.m. and the entrance fee is only 10 m/c. At this price every man, woman and child will visit it, and well it deserves half a dozen visits, or more.

Sunday was the 20th anniversary of the destruction of the city of Mendoza by earthquake.

The Memoria of the Lord Mayor for 1880 is published. As it contains 317 pages, it may be some days before we can give our readers a thorough digest of this important report.

Montevideo is going in to win this year in the opera line. The empresario there has already engaged La Rubini Scalisi at 5000 francs monthly ; Biancolini so well known here, La Sembrech (now in London) at 25,000 francs for 12 performances in the month ; and lastly Gayarre, the Mario of the day and greatest of tenors, who gets 3000 francs per night ! We hope this telegram is not a joke ; but Gayarre first came into notice here and is probably anxious to see his friends here, £120 per night is the highest price any artist has hitherto been paid in the River Plate, and we believe it is all bosh.

A funeral Mass is celebrated today at Navarro for the late much lamented Father Curran. Through the good offices of Dean Dillon permission has been obtained to inter Father Curran's remains in the church of Navarro.

Hermann's programme for to-night at the Colon Theatre contains all his most marvellous tricks, and as we shall not see him again for some time, the opportunity should not be lost by lovers of the wonderful.

We much regret to announce the death of Mrs Norris, one of the oldest and most esteemed Irish residents in this country, who expired on Sunday, on her estate in Navarro, aged 70 years. The deceased lady was a native of the County Wicklow, and came to this country 45 years ago. She leaves an immense fortune. We offer our most sincere condolence to her family on their sad bereavement. The funeral takes place to-day, at Navarro, and Dean Monsignor Dillon and several other friends left town yesterday evening to attend at it,

Patacons.....	29.10
Cedulas A	93
National Bank Shares..	78½
Bonos Provinciales	1½ premium.

The week has opened on a remarkably slow gold market ; prices holding very firm spite of the rather general conviction that rates will give way. For cash only 58.544 pats. sold, opening at 29.05 and closing at 29.10 ; for the end of the month only 165,000 pats. sold at 29.05, which shows a slight turn in the market since Saturday, namely that gold is cheaper on time than for cash. Sales for April at 28.85.

Cedulas flattened down to-day to 93, and the stock seems to sympathise with the Municipal project to raise Cedulas to pay off deficits ; the sales cash were cheaper than on time.

National Bank Shares are becoming more speculative even than gold ; 1,800 shares sold for the end of the month at 78½, and 391 for April at 79¼. Formerly such large sales would at once tell on the market, but now they are thought nothing of, and the shares, which formerly were in the hands of a limited circle are now held by the public. Bonos Provinciales one sale for end of month at 1½ premium.

The heat to-day was very intense, and more rain is much needed. We hear that there are parts in the camp where it has not rained a drop, and many parties fearing a 'seca' in the winter are selling their 'rodeos'.

Amongst the passengers leaving in the Douro on the 8th are Dean Monsignor Dillon who goes as special agent for the Government to Ireland, and Mr Edward Casey who makes a trip to Europe during the winter months The Douro will leave a very full ship.

We have received by the mail circulars from St. Louis in the U.S. respecting Mr H R Helper's railway scheme, which we must hold over for the present.

With much pleasure we announce that all pending questions between the Argentine Government and the Eastern Argentine Railway have been most satisfactorily arranged, and Mr Thompson, the representative of the Company here has telegraphed to the London Directors, announcing the fact. We compliment Mr Cortinez, our Minister of Hacienda, on this arrangement, as it was indeed a matter of regret to all that so very large a balance should remain over so long due to the shareholders.

Respecting the loan there was nothing very fresh to-day beyond the rather interesting table, which the *Pampa* published, and which shows that the most advantageous offer is by Mr Heimendahl for the Banque d'Escompte and Hannover Bank at 80.67. We heard on 'Change that the Societe, however, takes the loan at 81 net, and pays on signing contract 30 millions francs to the Government; possibly to-morrow it will be finished.

There was very little business done on 'Change, it being Monday and most of the merchants were busy writing for the Araucania's mails, as the letters had to go down to-night to Montevideo. Exchange was done to-day for that mail and closed with bills over at the following rates—
On London 49½-⅝
Paris 5.22
Havre 5.24
Antwerp 5.24.

The exchange market is very strong and looks upwards.

The Britannia from Liverpool arrived and sailed to-day, her mails, later than the French will be up in the morning.

The Saturno, which in the fog on Sunday morning ran on the beach at Belgrano, has not yet been got off, and grave fears are entertained of her; amongst her passengers were four newly married couples, which increased the awkwardness of the disaster.

Mr Rom was charged on Saturday to offer Mr E Tornquist 50,000 dollars per league, for his National lands situated outside of the fifth degree, that is to say in Guatrache, between Salinas Grandes and Colorado. The offer was not accepted. This shows how the land wind is blowing in the South.

Mr T Dodds stars on the 23rd inst. to measure the property of Dn John S Greene, situated in the partido of Lincoln. This well known Surveyor has also been named Municipal Engineer of the town of Gral. Rodriguez.

Gold at afterhours ruled very quiet and somewhat weaker. At 4 o'clock 40,000 pats sold for end of month at 29.05, also 160 shares Nat Bank at 78½, buyers for more offering.

Exchange on London was passed to-day at 49⅜, no takers at 49½

Mr Swingen exhibited on the Bolsa one of the most beautiful tropical flowers we have seen, the 'philodeadron' a Brazilian plant of great worth and very scarce.

There was some talk on 'Change to-day that if the present negotiations for the loan fell through, the business would be confided to Messrs Baring, whose offer is to advance the Government 3½ million pats. guarantee the Government 80, and sell it for account of Government at best price over that figure, everything over 80 being for Government, less 1 per cent commission and ½ per cent charges.

The Italian Exhibition inauguration was the talk on 'Change to-day ; many parties see in it a new departure for these countries ; it is certainly the first of the kind ever attempted here, and, if it shows a rapid growth of native industry, it shows a still more rapid growth of foreign enterprise and foreign representation. A very large and influential portion of our Bolsa community is Italian, whilst but a few years ago only the well known broker called the Italian's friend figured at the ring, but the Italian interests in this market are growing as fast as the country itself, and these splendid interests steady the country and strengthen its development. The Italians are now figuring conspicuously as exporters; both wool and hides are bought daily in the Plazas for Italy and in fact what the Italians want to still further develop their interests in this market is more capital. The Italian Bank ought to have double its present capital, and under its very able management it would have safe and lucrative employment for the increased amount.

The new steamer Danish Monarch entered on Sunday from Bordeaux with a splendid cargo of wine to Messrs Dussand & Co. ; Messrs W Samson & Co. brokers. She has not yet been posted, and we are not certain for what port she loads, or on what day she sails.

Messrs Henry Clews & Co., of New York have published a most exhaustive circular reviewing that money market ; we extract the following :—

New York, Jan. 4th, 1881

The past year has been in many respects the most important in the history of this financial centre. In the number of new securities placed upon the 'call' of the Stock Exchange, and in the magnitude of transactions at the Board, 1880 has no parallel. The extent of the business done at the Exchange may be inferred from the following comparison of the number of shares sold in each of the last six years :—

	Shares.
Shares sold in 1880..	97,900,000
" 79..	72,600,000
" 78..	39,800,000
" 77..	49,800,000
" 76..	39,900,000
" 75..	53,800,000

Thus the transactions of the past year nearly equal those of the two previous years combined, although the business of 1879 largely exceeded that of any previous year. The course of prices has been as remarkable as the volume of the sales. The year opened with a very high range of prices, the result of the steady and large advance realised in 1879 ; but at the close quotations were generally much higher than at the beginning.

Among the causes tending to produce this extraordinary advance upon prices already unusually high, may be noted—1st. The remarkable prosperity of the railroads. The 'pooling' arrangements between the companies have enabled them to get what charges they chose to fix, and hence the rates for freight have been nearly double what they averaged during the previous era of active competition ; while the prosperity of general trade and the very large quantities of Western products sent to the seaboard for export have raised the tonnage to an unprecedented magnitude. These factors, together with continued improvements in management, have left an extraordinary surplus at the disposal of the companies ; so that, after liberal outlays on the properties, large dividends have been paid, and, in many cases, even then a surplus has remained that the managers have hesitated to divide among stockholders lest public jealousy should be aroused. 2nd. Another cause helping this advance in prices has been the large increase in the circulating medium. In the year 1879, we imported $67,000,000 of specie in excess of our exports ; besides which, nearly an equal amount was produced from our mines; making a total addition of about $130,000,000 to our stock of the precious metals during that year ; the effects of which naturally ran over into 1880. In 1880, we made a net import of about $65,000,000, add to which the home production estimated (in the absence of the annual statistics) at about $55,000,000, which makes a still further addition of $120,000,000 to our stock of gold and silver. This addition of $250,000,000 to the national stock of the precious metals within two years, and the fact that most of it has been made available for use as currency, amounts to an immense power of inflation. Viewed as an increase by one-third of the whole volume of the circulating medium, as it stood on the day of resuming specie payments, its effect upon prices must be conceded to have been immense. True, it has not produced any absolute plethora of money, nor any continuous ease in the loan market ; on the contrary, the banks have frequently found it difficult to keep pace with the demand for accommodation and periods of marked stringency have occurred ; but this only proves that the rise in prices has proceeded even more rapidly than the augmentation of the supply of money. 3rd. Beyond these two main causes there have been several minor ones tending to foster the upward movement. Among these may be mentioned the anticipation of a reduction of the rate of interest on a portion of the public debt to 3 or 3½ per cent, which favors a lower rate of return upon investments generally ; the general buoyancy of confidence attendant upon the unusual prosperity of business ; and the demand from London for our securities, which has been quite important during the latter half of the year.

As the following well known French Banking Company is one of the bidders for the loan the particulars we give hereunder will much interest this market, they are the freshest in the Plate—

"As usual, the Comptoir d'Escompte has been the first of the great French companies to hold its annual meeting of shareholders. The report read showed that the business of all kinds in 1881 amounted to a sum of 9,074 millions of francs, which was an increase of 1,572 millions compared with 1879. In that total the discounts appear for a sum of 2,026 millions, or 298 millions more than in the previous year. The subscriptions and Bourse orders for the purchase or sale of public funds amounted to 2,959 millions, also an augmentation of 573 millions. The agencies out of Europe produced an increase of 720 millions in a total of 2,936 millions. The agencies in France alone show a diminution from 641 millions to 626 millions. The business on the London agency proper amounted to 303 millions, and the transactions between the head office in Paris and the London branch to 1,143 millions. The principal issues on which the Comptoir d'Escompte took part during the year were the Indian Government Loan of 31 millions of rupees, of which this establishment took the half, and paid the instalments through its agency in Calcutta ; the issue of 44,000 bonds for the North-East of Switzerland Railway Company, and the 4 per cent Norwegian Loan, which the Comptoir d'Escompte obtained for itself and its allies—both of these were successful—and the Portuguese Three per Cent. Loan of 219 millions, the demands for which were so large that the subscriptions had to be considerably reduced. The Comptoir d'Escompte has created a branch at Melbourne, which has been open since the 1st January last. The profits for the year amounted to 7,392,760 francs, an increase of 336,000 francs on 1879. The dividend for the year was fixed at 46 francs or 9 1/5 per cent, against 44 francs in the preceding year. A sum of 19 francs per share having been distributed in August last, the balance of 27 francs will now be distributed. The outgoing directors and auditors were re-elected, and it was announced that M Denfert Rochereau, Secretary General, has been appointed Deputy Manager in the room of M Murlier, who retires in consequence of ill health, and that the post of Secretary General had been filled by M Brisson, who formerly occupied a similar position at the Societe Generale."

En nuestra casa, San Martin 51,

El Viernes 8 de Abril,

A las 2 de la tarde,

Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:

650 cabezas mestizas Durham, verdaderas Short horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1862, tienen por origen el toro mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alfaro (de Canuelas) y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la pariccion de los ultimos anos esta toda orejana.

Es precisamente de este ganado de donde se extrajeron las magnificas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas tamberas.

Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su propietario, cuando sus cruzas las clasifican hoy de ¾ y ⅞.

La venta se hara por todo lo que pisa.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un breck a 4 caballos, que en 2½ hora conducira a los a los interesados a visitar las haciendas hasta Mari Huincul.

DE

ANIMALES FINOS

De las razas, vacuno, caballar y lanar

Del gran Establecimiento

BLANDENGUES

Partido de Chascomus

Sobre la via ferrea del Sud

TREN ESPRESO IDA Y VUELTA

Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.

Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiente mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso.

El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomicado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este ramate que pedemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especis nacidos en el pais e importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

STATE OF IRELAND.

Trinity College, Dublin, are extensive landowners in Donegal and other counties. During last century they proved liberal landlords. Many townlands were leased, usually to middlemen, who sublet them to the immediate occupiers. Leases for 21 years appear to have been the full term that the College would then grant. The rents were often merely nominal. Before these leases had run more than one or two years a renewal, on the same terms was applied for; a fine, sometimes equivalent to the rent, was generally exacted; there was thus 19 or 20 years' possession always to the credit of the tenant. About the beginning of the present century the College began to increase their rents in the following manner:—Supposing the rent was £100 a year and the fine annually paid for the new lease £100, on applying at the end of the first year for a renewal the College would give 20 years at £100 and the 21st year at £150. At the next renewal, 12 months later, there would be 19 years at £100 and two at £150. Sometimes, when ten years had thus passed, the fine would be raised to £200. At first the tenants had a great pull, because, the fine and rent being about equal, if the College refused to renew, they only got half their income for 20 years. When, however, the rent crept up end the fine remained the same, the tenants were in power of the College, and rents were raised still more quickly. It is stated that no account was taken of the fact that houses, buildings, and all improvements had been effected by the tenants. The College never spent one six-pence, had no resident agent or bailiff, subscribed to nothing, and usually got from one-half to two-thirds of the gross rental. Fearing to have their interest on the estates, which many of them had held for generations, confiscated by further accessions to rent, the lessees, in 1851, joined the College in applying for an Act to convert the 21 years' leases into perpetuities On the Act being passed, several tenants preferred to run out their old leases. When the fine and rent were equal, or nearly so, they derived an advantage, Suppose the rent and fine were each £100, a saving would be effected as follows. Taking out perpetuity lease, 10 per cent on £220 for 20 years, £440; fine of £100 for 20 years, £2,000; on £220 perpetuity rent, 20 per cent for 11 years, £440; total, £2,880 The Act of 1851 empowered the College to grant leases, without fines, for periods of 99 years, and also in perpetuity; tenants had the option of converting their terminable into perpetuity leases. The annual rent is directed to be ascertained from Government valuations or by arbitration based on the standard prices of commodities and liable every ten years to variation with the varying average prices of agricultural produce. Exclusive of any rent-charge and interest on unpaid fines the rent is estimated as follows:—Five-elevenths is represented and regulated by oats, one-eleventh each by wheat and mutton, two-elevenths beef and butter. The standard prices thus paid for 112lb. of these articles were as follow:—Wheat, 8s. 4d.; oats, 5s. 6d.; beef, 41s. 1½d.; mutton, 47s. 1½d.; butter, 64s. 6d. The proportion of oats to other produce has been considerably reduced since 1851, and a schedule adapted for the present day would diminish the oats and increase the proportion of meat and dairy produce. These perpetuity leases are on the toties quoties principle; in other words, the terms which the College make with the superior tenant must, in like manner, be extended to the subtenants who pay no fines for the renewal of leases and who participate in the decennial variations of rents accruing from variations in the prices of produce. The regulation of rent by the valuation of agricultural commodities demands at present special consideration, as it is likely to be adopted as one of the few conditions which will alter, probably at intervals of 21 years, the rents of Irish tenants occupying tillage lands. In the neighbourhood of Ballintra, Trinity College have large estates, now generally let on these perpetuity leases and bringing in probably £.5,000 a year. Major Hamilton. J. P., of Brownhill, holds one of these College estates for which his rent is £1,000 a year; it has been in his family for two generations. On the handsome house, grounds and plantations a great deal of judgment and taste as well as money have been expended, and the Major's energy and example, as well as his own good farming, have been of great value to his liberally-treated tenantry and to his neighbours.

Looking for other phases of land tenure, I come upon the Ballymagroaty townlands, overhanging the road between Ballintra and Ballyshannon—100 years ago, I am told held at 2s. 6d. an acre by one lessee Thriftless and extravagant, he and his heirs gradually subdivided. On 534 acres, valued by Sir Richard Griffith at £317, there are now 30 holders with perpetuity leases, paying among them an annual headrent of £57, collected and brought in by the principal tenant. Many townlands are thus let to one man "and company"; all the tenants are individually and severally answerable for the rents, which are collected and brought to the office in one sum, the impecunious being often indebted to their better off neighbours for an advance to pay their portion. The people here are Protestants; the larger holders are doing best, but the smaller are rapidly recovering from their difficulties and debts incurred during the disastrous year of 1879.

ALMANACH DE GOTHA

(Concluded)

Upon the list of Orders there are inscribed 158 different Orders, some of which contain several classes, while 24 other decorations are mentioned conferred by dethroned sovereigns or no longer recognized by the countries to which they are attributed. France has a single Order—the Legion of Honor; Austria has nine; Bavaria, thirteen; Spain, thirteen; Prussia, twelve; and Russia eight. Six Orders went out with the kingdom of the Two Sicilies; 3 with the downfall of Maximilian—those of Our Lady of Guadeloupe, the Mexican Eagle and St Charles, and one with the overthrow of Lopez, the tyrant of Paraguay. Republic Orders are not uncommon—apart from the Cross of the Legion of Honor, a strict Republican might accept the Order of Santa Rosa of Honduras, the Order of Chivalry of San Marino, the Order of San Juan of Nicaragua, or the Medal of the Bust of Bolivar, of Venezuela. The ladies cannot complain that no stars and crosses are provided for their gentle broasts, since to them are allotted the Starry Cross of Austria; the Bavarian Cross of Merit and Orders of St Elizabeth, of Theresa, of St Anne, of Munich, and of St. Anne, of Wurzburg; the Cross of the Legion of Honor; the Victoria and Albert, Crown of India and Cross of St Katherine, of England; the Grand Cross (only) of the Order of the Crown of the Wends, of Mecklenburg; a Persian Order—not named; the Order of St Isabelle, of Portugal, the Prussian Order of Louisa and Cross of Merit; the Order of St Catherine of Russia; the Order of Sidonia, of Saxony, and the Order of Olga, of Wurtemberg.

Among the states enumerated in the second part of the book some deserve a passing notice. There is the Republic of Andorra, for instance, with a population variously estimated at from 4 to 18,000—where, by the way, they tried to get up a revolution the other day. It has for its suzerains the godless Republic of France and the Catholic Bishop of Urgel, who divide the nomination of the judicial authorities and receive as tribute annually the sums, respectively, of $192 and $178.20. The parishes—or rather 4 heads of families in each parish—elect the Council from which the Syndic is chosen. By the way, during 4 months of the year the Bishop of Urgel is Pope of Andorra and nominates to ecclesiastical offices without asking the sanction of Leo XIII. Andorra offers rare facilities for the establishment of another foreign mission. Bolivia presents the interesting spectacle of a standing army composed of 8 generals, 359 officers of high rank, 654 superior officers and 2000 men. Hayti, the statistician says cautiously has an outrageously large number of generals, and a fleet of 2 ships—on the stocks; the late Pope had a fleet of one vessel, but Leo XIII. abolished the Papal navy, we believe, from motives of economy. Under the head of Lichtenstein we find no notice of the fact that that gallant little principality, with its population of 9,124 souls is still at war with the German Empire! It is, for when Prussia and Austria made peace in 1866, they forgot to include Lichtenstein in the treaty, and hence Prince John II.—the enumeration of his royal family takes up nearly three pages of the Almanach de Gotha—has been left to wage war single handed against the Kaiser, Bismarck and Moltke for nearly fifteen years. Monaco has an army of nine officers and sixty-three men, and may be expected to offer a desperate resistance when France—as she soon will—gobbles up the principality whose gambling-hells now put such immense sums into the pockets of Prince Roland Bonaparte, the husband of Mlle. Blanc. The little Republic of San Marino is better prepared to resist any attack on its independence by Italy, since with only 7,816 inhabitants it has an army of 950 men—including 131 officers. How many readers would off-hand class Samos with Bulgaria—and, indeed with Egypt—as a tributary principality of Turkey? And finally, what a standing army Uruguay has! It originally contained 2,190 men, but having been reduced by a regiment of cavalry and a battalion of infantry, it cannot now number more than 1.625 soldiers of all arms, who wil be led to victory when necessary by two brigadiers, eight generals, fifty nine colonels, eighty-three lieutenant-colonels and 1,000 other officers.
